| Test Requested                                                                                                                                                                                                                                                                                               | Test Conclusion   |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------|
| 1. According to European Commission Regulation 1907/2006 (REACH Act), to test and evaluate the 253 kinds of SVHC content which have been listed in ECHA's website (latest updated on 4 February 2026): <a href="https://echa.europa.eu/candidate-list-table">https://echa.europa.eu/candidate-list-table</a> | Pass <sup>△</sup> |
| 2. According to the applicant's requirement, to determine and evaluate the 1 substance content which has been published in a public consultation launched by ECHA to identify an additional chemicals as Substances of Very High Concern (SVHCs) on 1 June 2021.                                             | Pass <sup>△</sup> |

Remark:

Pass<sup>△</sup> means

According to the specified scope and analytical technique, the concentrations of the 253 substances of SVHC, 1 kind of public comment substance are less than 0.1% in the submitted samples

| No. | Sample Name          | No. | Sample Name    | No. | Sample Name             |

Job No.: FSW2605201024CJ

**Note:**

1. In accordance with regulation (EC) No 1907/2006, any producer or importer of articles shall notify ECHA, in accordance with paragraph 4 of Article 7, if a substance meets the criteria in Article 57 and is identified in accordance with Article 59(1), if both the following conditions are met:
  - (a) the substance is present in those articles in quantities totalling over one tonne per producer or importer per year;
  - (b) the substance is present in those articles above a concentration of 0.1% weight by weight (w/w).
2. From 28 October 2008, EU & EEA suppliers of articles which contain substances on the Candidate List in a concentration above 0.1% (W/W) must provide sufficient information, available to them, to their customers and on request to a consumer within 45 days of the receipt of this request. This information must ensure safe use of the article and, as a minimum, include the name of the substance.
3. Companies supplying articles containing substances of very high concern (SVHCs) in a concentration above 0.1% weight by weight (w/w) on the EU market must comply with the Waste Framework Directive 2008/98/EC requirement and submit SCIP notifications on these articles to ECHA, as from 5 January 2021.
4. ND=Not detected, Less than reporting limit (RL).
5. RL=Reporting Limit (Test data will be shown if it  $\geq$  RL. RL is not regulatory limit.)
6. Results are calculated by the minimum weight of mixed components.
7. This report is based on Waltek test report WTF26F05140734C for revising, and replaced report WTF26F05140734C.
